Intelligence AI Academy

PROPOSAL FOR GENERATIVE AI WORKSHOP

AI Workshop for Students

A Joint Initiative by **NXTGEN**
Intelligence AI Academy and IIMC

NXTGEN Intelligence AI Academy

102, First Floor, Surabhi, Near Shegaon
Naka Square, Rathi Nagar, Amravati,
Maharashtra, India – 444601

ABOUT NXTGEN INTELLIGENCE ACADEMY

NXTGEN Intelligence Academy is a future-focused AI education institute dedicated to making Artificial Intelligence practical, accessible, and career-oriented for learners of all age groups.

We specialize in:

- Hands-on AI & Emerging Technology Training
- Real-world project-based learning
- Industry-aligned curriculum
- Ethical & responsible AI education

Our mission is to prepare the next generation and educators of India for an AI-driven future.

SURESH PAWAR
FOUNDER | DIRECTOR | AI COACH

Suresh Pawar, Founder & Director of NXTGEN Intelligence AI Academy, is a seasoned Technologist and Architect with over 20 years of global experience, including 17 years in the USA. He has led digital transformation and tech-driven innovation across organizations like Reliance Industries, Cognizant, HTC Global Services, Ascentis Corp., and UKG (Ultimate Kronos Group). A Post Graduate in Artificial Intelligence and Machine Learning from the University of Texas at Austin, USA, he holds multiple industry certifications in AI, Cloud, Enterprise Architecture, empowering learners to build future-ready technology skills. A Technical Blogger with 15K+ views, sharing insights on emerging technologies, AI trends, and industry best practices.

The Vision Behind This Collaboration

Artificial Intelligence is rapidly reshaping education, careers, and society. India, being a hub of talent and innovation, needs early AI awareness and structured AI education.

This collaboration aims to:

- Introduce AI literacy at college level
- Empower students with AI tools

AI Workshop for IIMC Students

Day 1 : Foundations of Generative AI for Media

Objective

To introduce students to the fundamentals of Generative AI, large language models (LLMs), and prompt engineering, enabling them to confidently use AI tools for academic and professional media tasks.

Key Learning Areas:

- What is Generative AI?
- AI vs Search Engines
- LLMs explained simply
- AI myths and realities
- Prompt Engineering Fundamentals
- Choosing the right AI tool

Outcome for Students:

- ChatGPT
- Gemini
- Claude
- Perplexity
- NotebookLM

Day 2: AI for Journalism & Newsrooms

Objective

To equip students with AI-assisted newsroom skills for researching, writing, editing, and producing journalistic content while maintaining editorial integrity.

Key Learning Areas:

- AI in reporting
- AI in editorial workflow
- Research automation
- Interview preparation
- Story angle generation
- Headline optimization

Outcome for Students:

- Breaking news report
- Feature article
- Editorial
- Opinion article
- Interview questionnaire

Day 3 : AI for Social Media & Digital Content

Objective

To enable students to design data-driven and audience-centric digital communication strategies using AI for social media planning and content creation.

Key Learning Areas:

- Content strategy
- Audience personas
- Viral hooks
- Content calendars
- Reels scripting
- Hashtag research

Outcome for Students:

- 30-day content calendar
- Instagram captions
- LinkedIn posts
- Twitter threads
- YouTube titles
- Shorts ideas

Day 4: Visual Storytelling with AI

Objective

To develop students' ability to create compelling visual communication assets using AI-powered image generation and design tools.

Key Learning Areas:

- AI Image Generation
- Posters
- Infographics
- Editorial illustrations
- News graphics
- AI presentation design

Outcome for Students:

- ChatGPT Images
- Canva AI
- Adobe Firefly
- Napkin AI
- Gamma

Day 5 : AI Video & Audio Production

Objective

To provide hands-on experience in producing AI-assisted audio, video, and multimedia content for journalism and digital storytelling.

Key Learning Areas:

- AI video creation
- AI voice generation
- Podcast creation
- AI avatars
- Short-form videos

Outcome for Students:

- CapCut AI
- HeyGen
- ElevenLabs
- NotebookLM Audio
- Descript

Day 6: Advertising, PR & Brand Communication

Objective

To enable students to leverage Generative AI for developing integrated communication campaigns in advertising, branding, and public relations.

Key Learning Areas:

- AI for advertising
- Campaign ideation
- PR writing
- Brand positioning
- Consumer personas
- Email campaigns

Outcome for Students:

- Press release
- PR pitch
- Brand story
- Ad copy
- Campaign slogans
- Product launch strategy

Day 7 : Fact Checking, Ethics & AI Automation

Objective

To build students' awareness of ethical AI practices, misinformation challenges, and AI automation techniques for responsible media communication.

- Hallucinations
- Deepfakes
- AI bias
- Copyright
- Fake news
- Responsible journalism

Outcome for Students:

- Students verify
- Images
- News reports
- AI-generated content

Day 8: Capstone Project & AI Portfolio

Objective

To integrate the knowledge and skills acquired throughout the workshop by developing an end-to-end AI-assisted media communication project.

Key Learning Areas:

- Students work in teams on a project

Outcome or Students::

- Each team presents
- AI workflow
- Tools used
- Prompt strategy
- Deliverables
- Ethical considerations

Execution & Responsibilities

NXTGEN Intelligence AI Academy

- Curriculum & content development
- Certified AI trainers
- Course delivery (Offline)
- Assessments & certifications
- Student & teacher support

IIMC

- Providing a facility/lab and student co-ordination on schedule

ABOUT NXTGEN INTELLIGENCE ACADEMY

OUR MISSION

As the education division of NXTGEN Innovate Technologies, the NXTGEN Intelligence Academy bridges classroom learning with industry innovation.

LET'S EMPOWER THE NEXT GENERATION OF INNOVATORS- TOGETHER.
